About A.G. Mohan, Indra Mohan and Svastha Yoga

Both Mandy and Robert are certified by Svastha Yoga to teach the Hatha Yoga of Krishnamacharya and have special permission from A.G. Mohan and Indra Mohan to teach and share all they have learnt from these master teachers over fourteen years.

The greatest influence on yoga in modern times was undoubtedly the legendary 20th century yogi, Sri T. Krishnamacharya – a master of yoga, scholar of all Indian philosophies and a healer of repute. Krishnamacharya is widely considered the 'father' of modern yoga, having taught the world's most influential teachers and shaping yoga as we know it today.

A. G. Mohan is one of the senior and highly regarded most yoga masters alive now, and a direct link to the authentic yoga traditions. A. G. Mohan continues to study, practice, and teach. He was a personal student of Sri T. Krishnamacharya for 18 years from 1971 to 1989. With his wife, Indra, he originated the Svastha organisation in Chennai, India. Svastha has an international presence with programs around the world, and is an authoritative and accessible source of authentic yoga and Ayurveda. They offer training on yoga, yoga therapy, mindfulness, mind and body well-being, and related areas, combining the best of ancient wisdom and modern science.

Indra Mohan has been practicing and teaching yoga for more than three decades. She is one of the few people who received a post-graduate diploma in yoga from Krishnamacharya. Known for her serene demeanour, she is a source of support and wisdom to her many personal students.

A.G. Mohan is the lead author of several books by the Mohan family, some of which are used as essential and recommended reading on this yoga teaching training program and other programs around the world.

Program Structure

Weekend Workshops

The Hatha Yoga Method Teacher Training is comprised of 10 modules, seven of which are delivered over two days on the weekends at Kookaburra Yoga in Bedfordale. There is the option of attending these live from your home if you live remotely, or can't attend in person. Attending all modules (either in-studio or by Zoom) is required to graduate.

Each module contains four x 4 hour sessions which each include theory, facilitated discussion, guided practice and a practical workshop to apply the knowledge. This includes practice and workshopping of the asana, pranayama, meditation, relaxation methods, and yogic practices linked to the session theme.

Each month there is set reading to be completed prior to the weekend and then following an online quiz and assignment/s to complete at home to explore the themes and source texts more deeply. No need to worry if you don't consider yourself a writer or an artist, support is given to help develop these skills which is an important part of becoming a discerning, critical thinker and articulate, confident communicator.

Residential Teacher Training Retreat

Modules seven and eight are part of a residential teacher training retreat to be held at Kookaburra Creek. In-person attendance at the residential retreat is required to graduate. You may stay onsite in shared accommodation (limited to 10 places) or camping onsite with all meals provided. If you prefer you can attend the retreat daily staying offsite in your own accommodation. The retreat is from 5pm on Thursday and ends 2pm on Tuesday. Other days are 6.30am-7pm with a rest period during the day.

At the commencement of the training you will be given access to yogaanatomy.net where you will study applied yoga anatomy and physiology as it relates to yoga asanas, pranayama and modern movement. The online program equals 30 hours and is to be completed within the first 6 months of the training.

Recognition of Prior Learning. If you have already done a comparable course of 30 hours or more in yoga anatomy and physiology on a previous training course, you can apply for exemption from this component of the training. You must submit in writing details and evidence of the qualifications, and complete an online exam to demonstrate competence.

Supervised Teaching

7pm-8pm Wednesday evenings. Attend instudio or online from home. Each week a trainee student will design and teach a supervised class at the studio and online via zoom for fellow teacher trainees. You'll learn to market and promote your class online and gain studio experience teaching to students in person and online.

Every month there is reading to do at home and assignments to complete.
